I don't know where people get the idea that they should write a bad review about this game. I find it fun and highly addictive. Yes it is random every time you play, but that's the whole point of where the fun is. If it were the same every time it would be very boring, requiring no skill at all. I would rate this 9/10.. Dude, Dungeon Warfare 1 is amazing, and I just can't believe how much more better this tiny group of dudes managed to make it most more better in the best of the good yes please more upgrades

it's like the Empire Strikes Back of Dungeon Warfare. Stark difference from the first game. Way darker. the grid map makes you feel hopeless. I friggin love it

FOR THE LOVE OF GOD PLEASE PRT TO IOS SO I CAN BUY IT AGAIN TO PLAY ON THE TOILET. Great game! I had a lot of fun with this game! It's a solid platform shooter, kind of like Mega Man. Cool graphics. Awesome rockin' soundtrack. Adjustable difficulty. Two different playable characters with their own unique weapons and abilities. Good controls. I recommend using a controller, but keyboard/mouse works pretty good too. The game is fairly short, so I recommend buying it on sale, but it's a very fun, well made game overall! I'm honestly surprised that it doesn't have better than "mostly positive" reviews. I'd put it solidly at "very positive".. Very fun game to play, especially with a few friends.

The online multiplayer works.

The storyline starts slow but picks up a bit, somewhat mediocre.

Overall what makes the game fun is the massive unit caps, the variety in the 4 races, and the RPG elements.

Its also a very beautiful game and holds up well for how old it is.

The biggest letdown is the lack of Skirmish maps. There are only about 5.

That and the lack of hotkeys and information menus create a bit of a

learning curve.. Extra 11 levels which require more skill, timing, and of course patience to complete them.

. All I can say even if this was free it would cost to much its is super crap

I slugging did it! Finished the entire trilogy! The previous two installments had me raging but the finale finally redeems all the crap you take for acutally being a real hero. I really wanted to murder every antagonist (and you do get that chance) I came across but in the end, my heroine wound up doing the right thing and it paid off. Also, I wound up with Lucky because Black Magic is a vapid, shallow ♥♥♥♥♥ and literal parasite. I really do reccomend that one play the entire thing as a trilogy as HeroFall finally allows you to right/revenge all wrongs from the previous games.. The skiing feels good. It's not quite as much of a workout as the other skiing games but control feels good.

Shooting feels good too.

Menu and interfaces could use some attention.

Overall decent. About on par with the VR dodgeball game that recently released.

But There's only one track.

wait for update. needs at least 2 more tracks to be worth owning.. its amazing game, so funny, so good for relax :)

. The sound in this game is simply awful. It looks and feels like a nineties arcade game, and the controls are unpleasant..

Keyboard shortcuts in tutorial doesn't work for me, heck! Tutorial level got stuck...

Also, I encountered some text issues, therefore I won't look into game further. I've seen enough reasons not to play on other reviews - basically game is boring, copying Plants vs Zombie idea, but moving into military field.
